Restrictions.—1) The research firm/analyst and his/her dependents/ employer cannot trade in the securities of the company whose report they are preparing for 30 (thirty) days before and 5 (five) days after the launching/ publishing the report. The research firm shall not publish a research report and shall not make a public appearance regarding a subject company for which it acts as issue manager, co-issue manager or underwriter of an initial public offering for 30 calendar days following the first date on which the security will be offered to the public.

2) Compensation of analysts, including salary, bonus, any other form of compensation, Shall not be tied to specific merchant banking/investment banking transactions.

3) The research firm/analyst shall be prohibited from offering or threatening to withhold a favorable report or a specific price target to obtain merchant banking/investment banking business or compensation from a company.

4) The research firm/analyst shall not participate with merchant bankers/investment bankers in generating investment banking business.

7. Research Standard.—Every Research Firm/Analysts should have the following research standards—

(A) Diligence and Reasonable Basis :

- 1) Exercise diligence, independence and thoroughness in analyzing investible securities and making investment recommendations.
- 2) have a reasonable and adequate basis supported by appropriate research and investigation, for any investment analysis, recommendation or action.
- 3) Make reasonable and diligent efforts to avoid any material misrepresentation in any research report or investment recommendation.

(B) Communication with clients and prospective clients :

- 1) Disclose to clients and prospective clients the basic format and general principles of the investment processes used to analyze investments and must promptly disclose any changes that might materially affect those processes.
- 2) Use reasonable judgment in identifying which factors are important to their investment analysis, recommendation or action and include those factors in communication with clients and prospective clients.
- 3) Distinguish between fact and opinion in the presentation of investment analysis and recommendations.
- 4) Disclose the valuation method used to determine the price target and a disclosure concerning risks that may impede achievement of the price target.

(C) Record Retention :

Develop and maintain appropriate records/facts for at least 7 (seven) years to support their investment analysis, recommendations and other related communication with clients and prospective clients.

Provided that if any research firm/analyst publish any report without reasonable and adequate basis supported by research and investigation, aiming to manipulate the market, it/s(he) along with the employer will be jointly and severally liable and punishable under the applicable securities law of the country.

(D) Independence and Objectivity :

Use reasonable care and judgment to achieve and maintain independence and objectivity in research activities. Research analyst must not offer, solicit or accept any gift, benefit, compensation, or consideration that reasonably could be expected to compromise his/her own or another's independence and objectivity.

(E) Material Nonpublic Information :

Research Analyst who possesses material nonpublic information that could affect the value of an investment must not act or cause others to act on the information.

(F) Loyalty, Prudence, and Care :

Research Analyst must act for the benefit of their clients' interests before their employers' and their own interest.

(G) Fair Dealing :

Deal fairly with all clients when providing investment analysis, making investment recommendations. Research report must be disseminated after trading hour of the stock exchange(s) in such a manner that all clients have a fair opportunity to act on every recommendation.

(H) Conflict of Interest :

Best practice is to avoid conflict of interest of between all the related parties. When conflicts cannot be reasonably avoided, disclosure must be provided as mentioned in Rule 5.

8. Other disclosures.—(A) Every research report shall contain at least the following in addition to the analysis and evaluation of a particular stock :

- 1) Credentials of Research Firm
- 2) Short Bio-Data of Head of Research and Research Analysts who are working with firm.
