EXECUTIVE SUMMARY

VIPB Asset Management Company Limited (VIPB AMCL) has successfully managed NLI First Mutual Fund (Ticker: NLI1STMF), a closed-end mutual fund for the full tenure since its listing on February 06, 2012. Investment Corporation of Bangladesh (ICB), the Trustee of the Fund has approved the modality for conversion of the Fund as per BSEC Directive dated July 08, 2015 on conversion of a closed-end mutual fund into an open-ended one. In a Trustee Committee meeting held on September 02, 2021, the Trustee decided on the following dates:

Date of trade suspension:	February 06, 2022
Effective date:	February 07, 2022
Date of unitholder's meeting:	February 16, 2022

Upon getting approval from BSEC on April 26, 2021, the Trustee held a unit holders' meeting on February 16, 2022 on an online platform where 69.29% holders of the units of the Fund cast their vote, and 99.93% of them voted in favor of conversion of the Fund into an open-ended Fund named VIPB NLI 1st Unit Fund.

National Life Insurance Company Limited is the Sponsor and VIPB AMCL is the Asset Manager of this Fund, whereas Investment Corporation of Bangladesh (ICB) is both the Trustee and the Custodian of the Fund. This is a 'continuous offer' fund by nature, which facilitates the investors to subscribe and redeem units at their will. The Fund is going to offer electronic (online) purchases and repurchase processes considering the convenience of the investors.

Currently, VIPB AMCL manages one closed-end mutual fund and four open-ended mutual funds. Both Southeast Bank First Mutual Fund and NLI First Mutual Fund, the two closed-end mutual funds that VIPB AMCL have managed, have consistently outperformed the market and have been among the best performing mutual funds in last 10 years. NLI1STMF had an initial size of Tk. 45.76 crore. The Fund has disbursed Tk. 52.10 crore in total in the form of cash dividends during its tenure. On the day of trade suspension at maturity of the Fund, the Fund's size in terms of total NAV at market value was Tk. 75.24 crore.

VIPB Accelerated Income Unit Fund, the first open-ended mutual fund managed by VIPB, has showcased good performance since its inception on July 2016. VIPB has subsequently launched 2 (two) more open-ended mutual funds named VIPB Growth Fund and VIPB Balanced Fund in 2017 and 2020 respectively. In 2021, the company has successfully converted Southeast Bank 1st Mutual Fund, the first closed-end mutual fund managed by the company, into an open-ended fund named VIPB SEBL 1st Unit Fund. VIPB AMCL is hopeful of continuing its successful track record in managing the proposed VIPB NLI 1st Unit Fund. The funds under VIPB AMCL generally invest in well-governed companies which are market leaders in their respective industries when the intrinsic value of their stocks are significantly higher than their market prices.

CHAPTER 2: BACKGROUND

2.1 Background of conversion into open-ended Fund

NLI First Mutual Fund (NLI1STMF) was the second closed-end mutual fund managed by VIPB Asset Management Company Limited, which was launched in 2010-11 and listed with the stock exchanges on February 06, 2012. Trading of the fund in both the bourses were suspended from February 06, 2022 upon completion of its 10-year tenure as a closed-end mutual fund. The size of the Fund was Tk. 503,338,000.00 (taka fifty crore thirty-three lac and thirty-eight thousand only) divided into 50,333,800 units of Tk. 10 (ten) each at the end of its 10-year tenure. The Trustee held a unit holders' meeting on February 16, 2022 on an online platform where 69.29% (3,48,74,509 units) of all the unit holders (5,03,33,800 units) gave their consent. In the meeting, 99.93% of the present unit holders of the Fund passed a resolution in favor of the conversion.

BSEC has approved the conversion of NLI First Mutual Fund from a closed-end fund into an open-ended fund on **March 29, 2022**, after completion of its maturity following বিধি ৫০(গ) of বিধিমালা, ২০০১. Existing unit holders of the said Fund shall be entitled to unit certificates through conversion at NAV per unit of Tk. 14.95 as decided by the appointed Auditor and approved by the Commission in the Consent Letter. Hoda Vasi Chowdhury & Co., Chartered Accountants has been appointed for the Statutory Audit and Malek Siddiqui Wali & Co., Chartered Accountants has been appointed as the Valuation Auditor, to perform asset valuation and determine Net Asset Value (NAV) based on online voting of the unitholders.

Below is the summary of historical performance of NLI First Mutual Fund:

Particulars	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2019-20	Total

The above table illustrates that the Fund has declared 17.50% cash dividend at its highest and 5% cash dividend at its lowest during the previous 10 (ten) years of its operation. During this time, the Fund has disbursed Tk. 57.76 crore in the form of dividend in total (including Tk. 52.10 crore cash dividend), amongst its investors against the collection of Tk. 45.76 crore in the initial public offering.

Open-ended Mutual Fund is widely popular throughout the world among all kinds of investors. It is highly accepted and one of the most sought investment vehicles offering a lot more flexibilities. Globally, at present, most of the mutual funds are open-ended ones. The scenario in Bangladesh has changed a lot over the last couple of years as a good number of open-ended funds were launched. At present there are 79 open-ended mutual funds (as of June 19, 2022) approved by BSEC. More funds are in the pipeline waiting to get the approval from the regulator.

VIPB Asset Management Company launched its first open-ended fund naming, VIPB Accelerated Income Unit Fund in 2016. The Fund got tremendous response from both individual and institutional investors. The Fund was the best performer in 2017 among all mutual funds operational in Bangladesh. This sort of performance record isn't new for VIPB Asset Management. Even when the market went through a critical time since the market crash of 2010-11, the company continued to show robust performance in managing its previous two closed-end mutual funds, i.e. – Southeast Bank First Mutual Fund and NLI First Mutual Fund.

That successful track record inspired the company to launch its first open-ended mutual fund, VIPB Accelerated Income Unit Fund in 2016 and eventually the Fund carried the success story further. VIPB Asset Management launched its second and third open-ended mutual funds naming, VIPB Growth Fund in 2018 and VIPB Balanced Fund in 2020. Recently, the company has successfully converted Southeast Bank First Mutual Fund, its first closed-end mutual fund into an open-ended mutual fund namely, VIPB SEBL 1st Unit Fund. VIPB Asset Management Company Limited believes that it will continue to maintain its performance track record in case of the proposed VIPB NLI 1st Unit Fund as well.

The parties to the Fund are: National Life Insurance Company Limited as the Sponsor, VIPB Asset Management Company Limited as the Asset Manager and Investment Corporation of Bangladesh (ICB) as the Trustee & Custodian of the Fund.

2.2 Advantages of Investing in VIPB NLI 1st Unit Fund

Generally, investment in mutual funds provide certain incremental advantages when compared to investment made directly in the capital market. Highlighted below are some of the advantages the investors may benefit from when investing in VIPB NLI 1st Unit Fund:

- ❖ Mutual funds generally lower investment risks for small and retail investors through diversification into multiple sectors, companies, securities, and via investing in various asset classes. The Fund manager will attempt to maximize return for a given level of risk and always conduct a balance in its risk-return tradeoff.
- ❖ Mutual funds through its diversified pool of investments will provide small investors access to returns of the wider market, which will be very costly for retail investors to achieve individually.
- ❖ Greater participation of mutual funds will add to enhanced liquidity to the overall market and, since most mutual funds are long-term investment vehicles, this will create price stability, better price discovery and reduce short-term volatility in the market.
- ❖ The Fund's performance will benefit from the VIPB Asset Management Company Limited proprietary investment process and research tools for both fundamental and technical analysis. VIPB AMC has a highly skilled in-house research team who are experienced investment professionals dedicated to research the stock market, its scripts and the impact of the broader macro-economic factors that impact the market.
- ❖ In Bangladesh, mutual funds enjoy a reserved quota under Eligible Investor (EI) category for all Initial Public Offerings (IPOs). IPOs in Bangladesh have historically performed very well relative to the market index and have positively contributed to mutual fund performance.
- ❖ The investors will be able to save significantly in transaction costs as he/she will have access to a large number of securities by purchasing a single unit of the mutual fund.
- ❖ Income from the Fund is exempted up to Tk. 25,000 (taka twenty-five thousand only) under section 22A of Sixth Schedule of the Income Tax Ordinance 1984.
- ❖ Investment in the Fund will qualify for investment tax credit under section 44(2) of the Income Tax Ordinance 1984.
- ❖ Management and operations of mutual funds are subject to strict regulations from the BSEC and the Sponsor appointed Trustee, both of whom closely monitor the performance of the Fund. The laws governing mutual funds require extensive disclosure to the regulator and general public.
- ❖ VIPB NLI 1st Unit Fund offers the investors to choose between receiving cash dividends and Cumulative Investment Plan (CIP). The latter allows the fund manager to reinvest the dividend in the market.
- ❖ Price of the units of the Fund won't be determined by demand and supply, rather by Net Asset Value (NAV) of the Fund.

CHAPTER 4: RISK FACTORS

Investing in the VIPB NLI 1st Unit Fund (hereinafter “the Fund”) involves certain risks normally associated with making investments in securities. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund can fluctuate to increased or decreased level. On redemption, there is no assurance that the investors will receive the amount originally invested. The Fund is suitable for investment by investors who understand the risks involved and who are willing and able to survive the loss of their investments. In particular, prospective investors should consider the following risks.

General Risk

There is no assurance that the Fund will be able to meet its investment objectives and investors could potentially incur losses, including loss of principal when investing in the Fund. Investment in the Fund is not guaranteed by any Government Agency, the Sponsor or the AMC. Mutual funds and securities investments are subject to market risks and there can be no assurance or guarantee that the Fund's objectives will be achieved. As with any investment in securities, the Net Asset Value of the Fund may go up or down depending on the various factors and forces affecting the capital markets. Past performance of the Sponsors and their affiliates and the AMC do not indicate the future performance of the Fund. Investors should study this offer document carefully in its entirety before investing.

External Risk Factor

Performance of the Fund is substantially dependent on the macroeconomic situation and the capital market of Bangladesh. Political and social instability may have an adverse effect on the value of the Fund's assets. Adverse natural climatic condition and epidemic may impact the performance of the Fund.

Market Risk

Bangladesh capital market is highly volatile and prices of other securities can fluctuate significantly. The Fund may lose its value or incur a sizable loss on its investments due to such market volatility. Stock market trends indicate that prices of majority of all the listed securities move in unpredictable direction which may affect the value of the Fund. Furthermore, there is no guarantee that the market prices of the units of the Fund will fully reflect their underlying Net Asset Values.

Concentration Risk

Due to the limited number of listed securities in both the stock exchanges i.e., DSE and CSE, it may be difficult to invest the Fund's assets in a widely diversified portfolio as and when required to do so. Due to a very thin secondary fixed income/debt market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. Limited options in the money market instruments will narrow the opportunity of short term or temporary investments of the Fund which may adversely impact the returns.

Dividend Risk

Despite careful investment selection of companies in the Fund, if the companies fail to provide the expected dividend or fail to disburse dividends declared in a timely manner, that will impact the income and the overall return of the Fund. Regulators may impose limit/ cap on the ability of the investee companies to declare dividends, which in turn may impact the income and the overall return of the Fund.

Underlying Liquidity Risk

For investing in Pre-Public Offer Placement securities (i.e. – in the unlisted equity securities), may involve liquidity risk. In addition, market conditions and investment allocation may have an impact on the ability to sell securities during periods of market volatility. Debt securities, while somewhat less liquid, lack a well-developed secondary market, which may restrict the selling ability of the Fund, and may lead to the Fund incurring losses till the security is finally sold. While securities listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Fund incurring losses till the security is finally sold.

Investment Strategy Risk

Since the Fund will be an actively managed portfolio, the Fund is subject to management strategy risk. Although the AMC will apply its investment process and risk minimization techniques, when making investment decisions for the Fund, there can be no guarantee that such process and techniques will produce the desired outcome.

Credit Risk

Since the Fund will seek to invest as per the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১ in both equity and fixed income securities, the credit risk of the fixed income issuers is also associated with the Fund. Investment in fixed income securities is subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.

Interest Rate Risk

The Net Asset Value (NAV) of the Fund is expected to increase upon a fall in interest rate while it is supposed to fall with a rise in the interest rate to the extent it is invested in Debt and Money Market securities. Also, zero coupon securities do not provide periodic interest payments to the holders and hence these are more sensitive to changes in interest rates. So, if the Fund Manager opts for investing in zero coupon securities offering attractive yields that would increase the risk of the portfolio also.

Issuer Risk

In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance, and management decision to take on financial leverage. Such risk can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.

CHAPTER 5: FORMATION, MANAGEMENT AND ADMINISTRATION

According to Guidelines for conversion of closed-end mutual fund into an open-ended mutual fund, the legal requirement of minimum subscription of the Sponsor of the Fund as per rules is exempted. However, the existing unit holders shall be treated as Initial Subscriber to the newly converted open-ended mutual fund. The unit holders in their meeting didn't intend to change any of the parties (i.e. – asset manager, Custodian, Sponsor) of the Fund and thus the parties to the Fund remains the same as it was the case of the earlier closed-end mutual fund.
